DYNAMIC TAPE - PLAIN OR TATTOO DESIGN

Dynamic Tape allows the wearer to move through full range of motion without limitation but with strong biomechanical assistance. It's highly elastic nature with no endpoint like kinesio tapes, as well as it's four way stretch, allows the tape to strongly assist or resist movement, facilitate or inhibit and offload tissue through a full range of motion.

	CODE:	SIZE:	PRICE:

DYNAMIC TAPE ECO

Made from recycled plastic bottles using Patent Pending technology. These unique properties create a higher modulus of elasticity meaning that the tape creates stronger resistance much sooner in range making it ideal for joint and ligamentous applications. Strong recoil provides firm compression to augment force closure.
