INTRODUCING THE NEW KINVENT SYSTEM

The Physiotherapist's Solution for Measurable Progress

NEW MODEL

7 CONNECTED DEVICES. 1 REVOLUTIONARY APP.

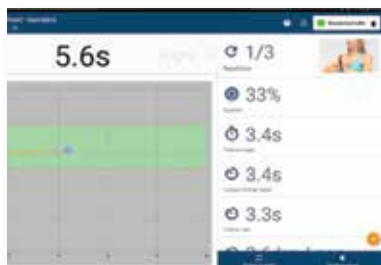

- ✓ Create full patient files
- ✓ Personalised reports
- ✓ Standard premium evaluations
- ✓ Rehabilitation assistance
- ✓ Film your patient's movements with K-Apture
- ✓ Allow patient access with MyKinvent
- ✓ Centralise your data with Kinvent Connect

HOW THE KINVENT SYSTEM HELPS YOUR PATIENTS AND YOUR PRACTICE...

Objective Data

Move your assessments from subjective to objective with analytical **evaluations**.

Controlled Autonomy for Patients

Create custom-made rehabilitation programs with **biofeedback**.

Track Patient Progress

Highlight your patient's **development** over time.

Increase Patient Motivation

Put the fun back into rehabilitation with games.

Highlight Results

With **MyKinvent**, share your expertise with prescribing doctors and **patients**.

Save Time

Generate **reports** in a single click.

With Whiteley and Kinvent The Future is Within Reach

THE KINVENT SYSTEM IS MADE UP OF TWO POWERFUL PARTS: THE APP AND THE SENSORS.

PART ONE:

PART ONE OF THE KINVENT SYSTEM IS THE APP...

The App Highlights Your Expertise Every Day...

THE APP CONNECTS TO THE SENSORS...

PART TWO:

PART TWO ARE THE 7 DEVICES OR SENSORS...

The App Connects with the Sensors...

TOGETHER THEY COMBINE THE FUTURE OF
PHYSIOTHERAPY AT AN AFFORDABLE PRICE.

THE KINVENT SYSTEM

THE SENSORS:

A handy muscle dynamometer equipped with electronic force transducers giving real-time acoustic and optic biofeedback on your smartphone or tablet through the KFORCE APP.

🔍 KINDMC

A pull dynamometer you can secure anywhere. It is the ideal tool to assess powerful muscular groups and record in real time your patient's results for specific tests.

🔍 KINDLINK

A connected sensor to assess range of motion. With its built-in inertial sensor, it is a perfect tool for monitoring the rehabilitation of a joint's functional capacities.

🔍 KINDSENS

K-Force Plates are the perfect solution for measuring static and dynamic balance in a wide range of movements like a stance, squats and counter movement jumping.

🔍 KINDPLATES

An innovative pressure dynamometer that objectively measures a patient's ability to exert pressure with any body part, as it transforms pressure variations in force measurements.

🔍 KINDBUBBLE

KINVENT KITS:

K-Push | K-Force Plates | K-Move | Twin Handle

Kinvent Essentials Pack

The smartest & easiest solution to move you practice from subjective to objective. The smart toolkit includes the most versatile devices of the Kinvent product line to help you include data in your patient's rehabilitation journey. This pack includes a one-year subscription to the STARTER LICENSE.

🔍 KINKITESS

K-Push | K-Force Plates | K-Grip | K-Move
K-Bubble | K-Pull | Twin Handle

Kinvent Rehab Kit

Includes everything you need to help increase patient motivation and ensure long term patient engagement. The complete range of Kinvent devices is at your service in a single pack. This pack also includes a one year subscription to the PREMIUM LICENSE.

\$718.00

K-GRIP

A connected dynamometer to measure grip strength. K-Grip was designed to assess and train grip strength. It is an essential tool to track grip strength and everything it entails.

🔍 KINDGRIP

\$10,036.00

K-DELTA

K-Deltas are force plates for advanced biomechanical analysis. They are designed for sports performance. They are the perfect tool to manage athlete's return to sport or to help them increase performance.

🔍 KINDELTA

\$2,283.00

K-Myo (EMG Sensor)

The non-invasive EMG sensor helps shorten the rehabilitation process by chasing the weakened muscle groups, transcending muscle activation and tracking patient's improvement. The K-Myo is a portable physical therapy device that allows practitioners to collect and analyze data on muscle distribution rates, reconstruction, imbalance, power, and activation.

🔍 KINMYOSMALL

KINVENT ACCESSORIES:

\$307.00

Kinvent Jump Frame

The Jump Frame is an accessory for the KFORCE Plates, it helps stabilise the platforms.

🔍 KINAJUMPF

\$120.00

Kinvent Nordic Accessory

An accessory for the K-Force Muscle Controller, it replaces the classic grip & allows the dynamometer to be fixed to a barbell for support on a stable plane.

🔍 KINANORDIC

HGG PERFORMANCE

NEW!!! \$135.45

The Isotib-LT®

The ISOTIB-LT® is a workout device that you secure to your foot, which holds weights to strengthen your lower body muscles. Users can progressively add weight as they gain muscle strength. It features a 50mm loading bar and custom locking clamp to hold weights securely. The ISOTIB-LT® strengthens the muscles of the ankle, knee, shin, hamstrings, quads, hip flexors and glutes; making it the ultimate multifaceted tool for lower body strength and mobility training.

Features:

- Powerful strength and conditioning tool designed to unilaterally train the entire lower body
- Features a heavy duty nylon frame, stainless steel 50mm loading bar and custom locking clamp to hold weights securely
- The loading bar boasts 3 positioning options to accommodate various foot sizes and exercise preferences
- The fast fit and quick release adjustable foot strap features 5 positioning options to ensure it fits all foot sizes
- The heel support ensures maximum comfort and securely fastens device for exercises such as hamstring curls

Key Benefits:

- Increases ankle, knee and lower leg strength
- Improves jump height, sprint speed and explosivity
- Improves mobility, deceleration and directional change
- Prevents injuries such as ankle sprains & shin splints
- Great for rehab, recover faster from injuries & procedures
- Unlocks 10+ exercises with 1 tool

🔍 HGGISOTIB

HGG PERFORMANCE

NEW!!! \$144.50

The Tib Bar

The Tib Bar is an original HGG innovation – a game changing strength & conditioning tool designed to strengthen the tibialis anterior and the muscles, tendons and ligaments surrounding the ankle. Made from laser cut quality steel with a matte black finish. It features a stainless steel 50mm loading bar, custom locking clamp to hold weights securely and the iconic HGG customised rear collar. Also includes cushioned ankle support to ensure maximum comfort. Used by some of the world's most elite sporting teams & athletes, allied health professionals, and military personnel.

Key Benefits:

- An exercise tool used to carry out weighted tibialis raises
- Strengthens the anterior tibialis muscle, which is your first line of defence against knee pain
- Strengthen the muscles, tendons and ligaments surrounding the ankle while simultaneously stretching and increasing the ankles range of motion
- Strengthening these areas improves stabilisation and mobility, which is crucial for recovery from and prevention of injuries
- Helps to improve your sprint speed, jump height, deceleration time and directional change

🔍 HGGTIBBAR

NEW!!! \$108.00

The Wrist Axe

Designed by HGG Performance to be the first of its kind, The Wrist Axe is a sleek and universal piece of equipment that progressively loads the wrist and hand, building forearm, grip and rotational strength through full range of motion. Made from laser cut quality steel with a stainless steel 50mm sleeve, HGG customised rear collar and a matte black finish. Features a custom locking clamp to securely hold weights in place, which can be adjusted in seconds allowing you to train various exercises in differing degrees of resistance, quickly and effectively. It is portable and lightweight, ideal for use in home gyms, commercial gyms or outdoor training.

Key Benefits:

- Increases forearm, grip & wrist strength
- Improves performance in racket, stick & bat sports
- Improves mobility, flexibility & stability
- Prevents wrist & elbow injuries & pain
- Pumps up your forearms exercises with 1 tool
- Unlocks 6+ exercises with 1 tool
