ELECTROTHERAPY

\$1,650.00

Nu-Tek Laser Therapy Unit

Features:

- » Class 3b low level laser therapy
- » Laser Power: 200 - 1040mW
- » Independent control over all parameters
- » Continuous and pulsed operation available
- » Fully variable pulsed frequencies
- » Helpful menu of clinical indications specific to the laser applicator
- » Real time feedback of energy delivered
- » Display of energy in choice of joules or joules/cm²
- » 100 customized user programs

Select your probes:

- a) Single Diode Probe \$1,150 (NULASPROBEDIO)
 - b) Cluster Probe \$3,350 (NULASPROBECLU)
- Nu-Tek Trolley \$895 (NUTROLLEY)

* Probe sold separately.

Q NULASER

\$2,400.00

Nu-Tek Combination Unit

Combination of ultrasound therapy and two channel electrotherapy. This unique device allows for easy customization, & support different waveforms. It also contains abundant clinic programs, which contributes to the quick and effective treatment. ComboRehab2 can be expanded with the vacuum module, battery module and it is portable & delicate thanks to the innovative design.

Q NUCOMBO

\$1,395.00

Nu-Tek Dual Frequency Ultrasound Unit

- » 1 & 3MHz ultrasound frequency
- » Pulsed and continuous modes
- » Variable duty cycles (16Hz, 48Hz and 100Hz)
- » Contact control with both visual and audio feedback
- » 20 preset programs & 80 custom programs provided
- » Ergonomically designed sound heads.
- » Unit includes a 5cm² transducer. 1cm² head is sold separately.

Q NUULTRASOUND

\$3,250.00

Nu-Tek Combination Unit with Vacuum

Combination Electrotherapy, Ultrasound & Vacuum

- » 4 pole vacuum connections supported
- » Touch screen for simple operation
- » Two channel simultaneous monitoring
- » Multi frequency ultrasound (1/3 MHz, each probe) & eight stimulation modes such as 4-pole IF, 2-pole IF (Premod), EMS, Russian, BipHasic (TENS), Hi-Volt, Microcurrent (MCR) and DC
- » Independent electrotherapy (ES) and ultrasound (US) channel, independent US while using ES, & a combination of US & ES supported
- » 62 pre-set programs and 80 custom programs

Q NUCOMBOVAC

activforce2

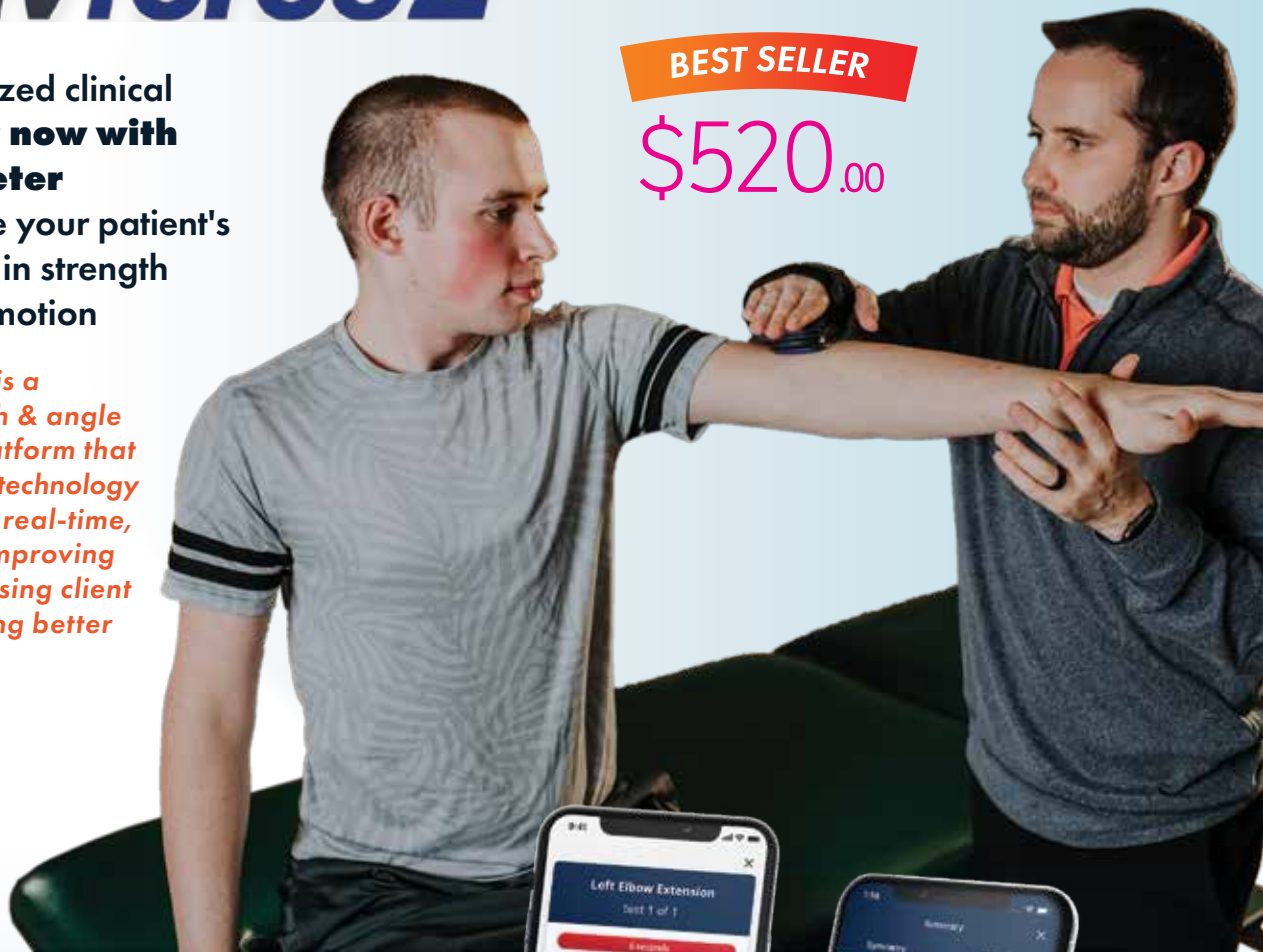

Your pocket-sized clinical
Dynamometer **now with
an Inclinometer**

Easily measure your patient's
improvements in strength
and range of motion

*The Activforce 2 is a
patented strength & angle
measurement platform that
utilises advanced technology
to collect & track real-time,
objective data, improving
efficiency, increasing client
retention & driving better
outcomes.*

BEST SELLER

\$520.00

An Affordable & Accurate Solution

At a fraction of the cost of other leading dynamometers, Activforce 2 offers a portable, highly accurate and easy-to-use solution that delivers quantifiable results.

Starting is Easy!

Conduct tests on your patient within seconds.

The Activforce 2 Kit includes:

- » Device & locking mechanism for supporting future accessories
- » Standard shell attachment
- » Cylindrical attachment for angular body parts
- » Hand and leg straps to hold the device securely
- » Specialized belt for pull measurement
- » Custom carrying case

Accurately Measure:

- ✓ Active & passive range of motion
- ✓ Peak force
- ✓ Average force
- ✓ Force over time
- ✓ Force/weight ratio
- ✓ Muscle symmetry
- ✓ Neuromuscular deficits

Track & Treat:

- ✓ Results in real time
- ✓ ROM progress
- ✓ Strength progress
- ✓ Data from test session reports delivered to your inbox
- ✓ Neuromuscular control with bio-feedback

Q ACTIVFORCE2

TENS MACHINES

\$184.00

Neurotrac® Digital Tens and Stim Machine – Rehab

Dual Channel TENS & NMES device with remote switch. The remote switch allows user to manually trigger stimulation to contract a muscle.

- » 10 Preset TENS programs
- » 10 Preset neuromuscular stim programs
- » 2 customised TENS and 1 customisable remote stim and conventional stim

Q NEUREH

\$251.00

Neurotrac® Sports XL Unit

Digital Dual Channel Stimulator (NMES) Suitable for Sports, muscle toning and muscle rehabilitation.

Features:

- » Dual Channel -2 lead wires for each channel giving a total of 8 electrode positions.
- » 21 Pre-set Sport's programmes and 3 Customisable programmes
- » Advanced multi-phase programmes where treatment is split into time phases with different stimulation parameters. Set up to 5 different phases within each treatment session
- » Stronger symmetrical stimulation, with the reduced Pulse Width: 50 – 330 µs

Q NEUSPOXL

Digital Dual Channel STIM unit suitable for Sports, muscle toning, muscle rehabilitation and cellulite reduction. 15 Built in Sports programmes for ease of use & 3 Customisable programmes. LCD displays intensity, rate, pulse width, time and programme mode.

Q NEUSPO

NEUROTRAC®

NeuroTrac® MyoPlus Pro

New and Improved touch-screen with full colour display. The new user friendly interface makes it a self-explanatory unit with the interactive learning on the go, including electrode placement, running EMG graph as well as many other helpful tools.

\$1,879.50

Neurotrac® MyoPlus 4 Pro Dual Channel EMG, ETS & 4 Channel Stim Unit

- » 2 channel EMG (Biofeedback) combined with 4 channel NMES (stimulation)
- » 2 channel ETS (EMG triggered stimulation) with stimulation on 4 channels
- » Interactive touch screen display
- » Includes wireless software kit

NEUMYO4PRO

\$724.50

Neurotrac® Myoplus Pro Single Channel EMG, ETS & Stim Unit

The new user friendly touch screen based interface makes it a self-explanatory unit with interactive learning on the go, including electrode placement, running EMG graph, EMG biofeedback Games and Templates as well as many other helpful tools. Wireless software kit included.

NEUMYO

\$492.50

Neurotrac® Simplex Unit Single Channel EMG Unit

- » EMG muscle training or assessment
- » Structured protocols for consistency of user progress reports
- » Produces and prints comprehensive progress reports of work/rest averages, onset contraction and muscle release times, peak values, work/rest average deviations
- » Wireless software kit included
