

# SEPTEMBER CHARITIES

Teatox Australia

---

The first recipient for the month of September was **International Bird Rescue**. International Bird Rescue was formed to provide the expertise and capacity needed to save oiled aquatic birds in emergency situations. Their highly trained staff and dedicated volunteers ensure that each bird receives expert and compassionate care.

They save birds' lives around the world by:

1. Responding to wildlife impacted by oil spills and providing expertise in planning and training to government agencies, oil industry personnel, wildlife groups and volunteers
2. Taking action during wildlife disasters, such as red tides and algal blooms, when no other resources are available
3. Caring for oiled, injured and orphaned aquatic birds year-round at our two rescue centers in California
4. Conducting ongoing research into the most effective strategies for saving wildlife
5. Training organizations and individuals around the world who are committed to rescuing seabirds
6. Inspiring the next generation by educating them about our life-saving work and the plight of avian species

With your help, we have been able to donate a large amount to the International Bird Rescue Fund. We certainly hope it makes you feel as good as it makes us feel helping out these birds in need!

To donate, head to [www.bird-rescue.org](http://www.bird-rescue.org)

Thanks again for allowing us with your help, to make a difference this month.

**Much Love - Teatox Australia xx**

Our second recipient for the month of September is **Bicycles for Humanity** charity who donate bikes from the developed world to those in need. Here is a bit of info on the charity, and what they do.

Bicycles For Humanity is a grass roots, volunteer run organisation focused on simple, sustainable empowerment in the developing world. We do this in the most transparent and practical way by sending unused donated bikes from the developed world to our partner organisations in various countries in need.

A bike allows someone to travel twice as far, twice as fast and carry four times the load. In the countries in which we work a bike can mean access to education, health care, fresh water, economic opportunity and community. Breaking the cycle of poverty by providing sustainable transport for one person impacts not only their life but also the lives of their families, communities and future generations.

Our primary partner in Africa is Bicycle Empowerment Network Namibia who have been implementing shipping containers of bikes as Bicycle Empowerment Centres across Namibia, and now Zambia, for the past six years.

With your help, we have been able to donate a large amount to Bicycles for Humanity. We certainly hope it makes you feel as good as it makes us feel helping out these people in need!

To donate, head to [www.bicyclesforhumanity.com](http://www.bicyclesforhumanity.com)

Thanks again for allowing us with your help, to make a difference this month.
