Ka-nū

Japanese for canoe, our Ka-nū ceramic tile series is inspired by these colorful, streamlined vessels. Artisans implement a specialized glazing process to create vibrant, pearled colors with an exquisite luster. The diverse selection of hues and color blends are available on a selection of architecturally dimensional patterns.

Please visit LunadaBayTile.com for our complete product offerings, applications and installation instructions.

NOTES

Since variations are common in artistic ceramic tile, we recommend final selection be made from an actual tile mock-up. To achieve optimal results in shading, layout and design, tile should be randomly selected from multiple boxes during installation. We recommend a minimum of 10% overage on all orders. On dimensional patterns, using a grout bag is the best method to target competent and successful grout application. Grout floats should not be used due to the luster glaze. Please take care when grouting and protect surface from abrasion. **Installation constitutes acceptance.** We advise retaining control samples to aid in color matching if additional material is required (match not guaranteed).

MAINTENANCE

A routine cleaning of Ka-nū tile can be done with a light duty non-abrasive, close to neutral pH detergent cleaner.

- ^{*} Acceptable for all walls and sporadic exposure near open flame or heat source, including fireplace wall/cooktop surround. **NOT** recommended for placement inside a firebox.
- ^{**} **ONLY** Single Fired colors, River Rock, Sail, Sand Bar and Light House Blend are acceptable for installation in pools, spas, water features and light residential floors; **NO** other colors are acceptable.
- [▲] Keel is a dimensional tile and thus **NOT** recommended for use on floors. All other sizes are acceptable.

FLOOR APPLICATION DEFINITIONS:
