

Send a wave of warmth through the room with the sophisticated PTC heating technology of pureHeat WAVE. Boasting four different safety features, pureHeat WAVE is the reliable choice for zone heating. With the touch of a button, warm air immediately begins filling your space with a consistent temperature from floor to ceiling.

pureHeat WAVE's 90° horizontal oscillation circulates warm air evenly throughout your entire space. Choose from three levels of warmth or select Cool Comfort Mode for a cool gentle breeze to maintain the perfect level of comfort during any season of the year.

## Benefits of pureHeat WAVE

 Adjustable Heat

 Easy to Setup, Easy to Use

## Features & Specifications

### Unit

- Dimensions: 10.9" H (277mm) x 10.0" W (254mm) x 10.0" D (254mm)
- Weight: 7.72 lb (3.5 kg)
- Adjustable Temperature: 62°-78°F
- Effective Area: Up to 650 ft<sup>2</sup>
- Warranty: 1 Year Limited Warranty

### Technologies

- PTC Heating Element

### Power

- Power: 120V ~ 60Hz
- Power Usage: 1500W
- Heat Output: 3500 BTU

### Packaging

- Dimensions: 12" H x 12" W x 13" D
- Weight: 8 lb
