

ActiveHEPA+ PRO

WITH ODOGard®

A Unique Fusion of Active and Passive Air Purification Technologies.

A completely new way to eliminate odors while purifying.

Active HEPA+ Pro with ODOGard® is the only purifier to combine both active and passive air purification technologies with the odor-eliminating power of ODOGard. In addition to reducing volatile organic compounds (VOCs), allergens such as pollen and pet dander, and odors caused by mold, bacteria and other pollutants, it has been proven to inactivate 99.98% of SARS-CoV-2, the virus that causes COVID-19, from the air.*

* Laboratory tests prove to inactivate over 99.98% of SARS-CoV-2 in the air within 10 air exchanges in a controlled environment.

We measure success in microns.

Continuous Purification

Neutralizes Tough Odors

Reduces Allergens in Breathing Space

Reduces Airborne Pathogens

Reduces Volatile Organic Compounds

Easy to Setup and Maintain

A brand-new standard in air purification.

1 BIPOLAR IONIZATION

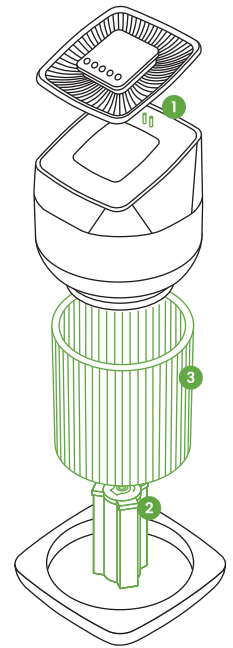

Ionization brushes create a plasma of negative and positive charges to remove particles from your breathing space.

2 PHOTOCATALYTIC OXIDATION

Using a broad-spectrum UV light and moisture in the air, active oxidation products are created to seek out and inactivate pathogens at the source.

3 HEPA FILTER WITH ODOGARD® COATING

Traps and destroys odors along with allergens and other particulates. Active HEPA+ ODOGard® is the only air purifier on the market that uses proprietary ODOGard technology to quickly and permanently eliminate odors by bonding to odor molecules.

Active HEPA+ Pro MODEL: IX5826 UPC: 817556020884	530 ACTIVE CADR*	1325 SQUARE FT**	99.98% SARS-CoV-2 REDUCTION	>0.3 MICRONS	11.3" x 11.3" x 24.0" UNIT DIMENSIONS	14.5 lb UNIT WEIGHT	13" x 13" x 25.8" BOX DIMENSIONS	875 Units 40' HQ QTY	30 Units PALLET QTY

*The combination of active and passive purification provides a superior clean air delivery rate over the standard CADR calculation. The "active" calculation includes the added benefits of PCO and BPI.

**Based on 8' ceiling height and 3 air exchanges. Advanced active technologies extend purification benefits. Actual coverage area may be greater.

CARB CERTIFIED
Meets California ozone emissions limit

Please review all instructions in Owner's Manual before purifier operation.

Greentech Connect App for Mobile Control Included

Greentech Connect gives you control of your Greentech products from anywhere. Set ideal purification levels, put in NIGHT MODE, or get up-to-date information such as current settings, air quality reading, room temperature and humidity, component lifetime and more.
