BOTTOM:

SPECIFICATIONS

Model: 1X5278
Dimensions: 75 mm L x 54 mm W x 27 mm D
Weight: 2.16 oz (61.2g)
Battery Type: Rechargeable Lithium
Battery Life: 28 hours (After 5 Hour Charge)
Ion Density: 50 Million Ions/cc
Ozone Output: Less than .03 ppm

Accessories:

- Leather Lanyard
- Carrying Case
- Micro USB Charging Cable (Wall Adapter Not Included)

CAUTIONS

CAUTION: Avoid using any liquid (besides isopropyl or rubbing alcohol) to clean the unit. Getting your unit's internal components wet will permanently damage the unit, rendering it useless and will void the warranty.

CAUTION: Sticking anything into the Purification Output Nozzle (the round opening in the grill) will permanently damage the emitter, rendering the unit useless and will void the warranty.

SAFETY INSTRUCTIONS

This product complies with the maximum allowable concentration of ozone of 0.050 parts per million by volume (ppmv) in a 24 hour period.

GETTING STARTED

NOTE: The unit operation is not always noticeable; to make sure it is working, raise it to your face to feel a slight breeze emitting and a slight purification smell. If you feel nothing but your blue light is on, see the Maintenance section of this manual for support info.

NOTE: For optimal performance, be sure to use the neck strap instead of attaching the clip to your shirt or pocket. The unit will need to have a centered placement to ensure your breathing space is completely covered.

UNIT POWER:

- To turn the unit ON, slide the Power Switch UP.
- To turn the unit OFF, slide the Power Switch DOWN.

OPERATION LED

NOTE: The Operation LED will only work when the unit is on.

- Press the Operation LED Power Button to turn the LED ON or OFF.

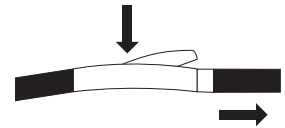

NECKLACE CLASP

WARNING: This necklace does not have a breakaway safety feature and represents a strangulation hazard to children as cords may become wrapped around a child's neck. To avoid strangulation and entanglement, keep cords out of the reach of young children.

1. To connect, insert the male end of the clasp into the female locking clasp until you hear a click.

2. To release, press down on raised end of the locking clasp's tab and pull on the male end.

CHARGING

- Plug your USB Charging Cable into the Charging Port located on the bottom of the unit.

NOTE: A small red light will appear inside the Air Intake on the rear of the unit to show that the unit is charging. This light will turn OFF once charging is complete.

OPERATING INSTRUCTIONS OF USB SUPPLY SOURCE

- A) That the product is not to be operated by any supply sources other than those specified in (B); and
- B) That the product is to be used only with the following products:
- 1) information and communication technology Equipment; or
 - 2) A Class 2 Power Unit.

CLEANING NOTES

CAUTION: Sticking anything into the Purification Output Nozzle (the round opening in the grill) will permanently damage the emitter, rendering the unit useless and will void the warranty.

CAUTION: Avoid using any liquid (besides isopropyl or rubbing alcohol) to clean the unit. Getting your unit's internal components wet will permanently damage the unit, rendering it useless and will void the warranty.

A buzzing noise is not uncommon and is caused by contamination on the ionizer electrode. This can typically be stopped by a quick blast of air from your mouth or from canned air into the top of the unit. Regular cleaning and maintenance should also be followed as some contaminants require the use of alcohol to remove.

CLEANING INSTRUCTIONS:

1. Turn the unit OFF and remove it from your neck.
2. Spray a small amount of isopropyl or rubbing alcohol directly onto the Grille and into the Purification Output Nozzle, which are the plate and round opening on the top of the unit. Allow to work for 30 seconds.
3. Use canned air or blow into the top of the unit to dislodge the particulates which adhere to the ionizer electrode.

This unit requires no maintenance, other than the suggested monthly cleaning. If you are experiencing any technical issues, please visit our website and submit a contact form or call us.

4. Vacuum the Purification Output Nozzle and Air Intakes.

WARRANTY

Your pureAir PERSONAL Personal Air Purifier is warranted to be free from all defects in material and workmanship in normal household use for a period of 1 Year from date of purchase.
