

EASISOLV C99

PRESS WASH

EasiSolv™ C99 Press Wash is a revolutionary product designed to address the low VOC restrictions on solvent based screen cleaning products in California. This product is a California Compliant (100 grams/liter VOC or less), environmentally approved, highly active liquid product to be used for ink removal at the press. Easisolv C99 cuts ink fast and is great for on press color changes, screen opening or saved screens.

SPECIAL FEATURES:

- EasiSolv C99 has a VOC of less than 100 grams/liter, making it compliant in California where VOC limits are the most strict.
- EasiSolv C99 has no odor which makes the job of color changes much more pleasant.
- EasiSolv C99 will not “lock in” emulsions and films which allows for quick, easy reclaiming.
- EasiSolv C99 is non-flammable which makes it safer for handling, storage and rag disposal than conventional solvents.
- EasiSolv C99 may be applied manually, recirculated through the EasiFlo™ System or recirculated in enclosed, automatic screen washing systems, providing superior product life and economy.

APPLICATION FOR MANUAL USE:

- Scrape all excess ink from screen.
- Apply EasiSolv C99 by squirt bottle, pneumatic sprayer or by rag.
- Thoroughly agitate ink with a rag or scrubber, then wipe up all dissolved ink.
- Reapply if necessary and follow with a dry rag, wipe on both sides of the screen.
- The screen will be ready for printing or tape application within seconds.

PHYSICAL AND CHEMICAL DATA:

Appearance & Odor:

Clear liquid with mild odor

Specific Gravity:

1.19 @ 20° C / 68° F

pH:

Neutral

VOC:

99 grams/liter

Flash Point:

93° C / > 200° F

Best Used With Ink Types:

Plastisol
