

RAINSTICK

Pre-Installation Checklist

ARCHITECTURAL

- ❑ A tiled shower floor; RainStick is not intended for bathtubs
- ❑ A curbed or sunken shower floor
- ❑ If it is intended to operate the shower in areas of hard water (above 200 ppm temporary hardness), a scale inhibitor/water softener shall be fitted.

ELECTRICAL

- ❑ GFCI-protected electrical circuit (120V, 60Hz)
- ❑ Waterproof connector accessible within the shower enclosure
- ❑ A WiFi 2.4 GHz network (Optional)

PLUMBING

- ❑ Hot water supply of 130°F (55°C) at the point of dispense (recommended), or 120°F (49°C) at minimum.
- ❑ Hot/cold inlets - 1/2 inch diameter
- ❑ Minimum water pressure hot/cold inlets at 43.5 PSI (3 bar)
