## PRODUCT DATA SHEET KIDLED2

## PRODUCT DESCRIPTION

Children love to discover the world with their own eyes - and from now on, they can also use their own light. With the Ledlenser Kidled2, the young adventurers are well prepared for expeditions into the darkness. Whether for reading, on night walks, as a colorful signal light or light toy: this versatile, battery-powered headlamp convinces with numerous child-specific functions and details, for example for a safe way to school.

- Versatile: white light, red light and blue light with flashing functions
- Safe: headband releases automatically under load + lockable battery compartment (screw)
- Clever: optics with reduced glare for sensitive children's eyes
- Practical: integrated metal clip for further attachment options without headband (e.g. on school satchel, backpack, clothing)
- Energy-saving: automatic switch-off after 20 minutes (optional)
- Certifications: CE, CPSIA

## FOOTNOTES

The information pertaining to scope of delivery, appearance, performance, dimensions and weight corresponds to the information available at the time of publication. In the interest of product development, we reserve the right to change scope of delivery, appearance, design and color without prior notice. Product images may vary from the actual products and may show optional accessories which can be purchased separately. Errors and omissions excepted.

1) Measurement values according to ANSI FL1 in the respective setting. If no setting is explicitly indicated, the values refer to luminous flux (lumens/lm) and lighting range (meters/m) on the highest setting, and to battery duration (hours/hrs/h) on the lowest setting. A boost function (if available) can be used several times, but only for short periods of time. If the light is equipped with (a) colored LED(s), the measurement values are given for the white light or the white LED. If the light has different energy modes, the measurement is made based on the "energy saving mode".
