15 oz

WELCOME TO THE FAM

It means a lot that you were willing to give us a try on your performance care journey.

Our mission at douxds is to empower men with powerful self-care knowledge and revolutionary tools.

We are collectively building an ecosystem of resources for men to be fully confident in their skin.

You are a part of a family whose sole purpose is to help each other level up and achieve life goals.

Your results matter the most.

Now that you have FLEX, it's time for your level up to happen.

Before using FLEX™ take a quick selfie. As the months go on, take periodic selfies to track your progress.

After 90 days of using FLEX, send in your before and after pictures or videos to receive \$100 store credit.

Check your email for a submission form.

We look forward to seeing your journey!

What Makes FLEX Different

The FLEX performance skincare tool is made with hygienic silicone bristles that are soft to the touch and provide a deep cleanse and exfoliation.

The five adjustable vibrations give your skin a burst of movement, increasing collagen production and maintaining your skin's vitality.

FLEX's silicone material combined with its charging case, activate a proprietary self-sanitization function. This ensures you do not breed harmful bacteria on your face.

Getting Started

This order comes with a 90-day Level Up guarantee. If you are not happy with your results, email us at support@douxds.com to initiate an exchange or a full refund.

You will receive feedback requests from us as we want to ensure this is the best brand and product experience you will ever have.

Again congratulations on starting your performance care journey with us. Before you begin to use FLEX, take a moment to carefully read the instructions in this guide.

- Damon, Founder of douxds

Charging FLEX

You will need to charge FLEX before using it. To start charging, lay FLEX flat in its case and close the lid. Use the provided USB-C cord and a separate USB charging brick to give the case power.

A full charge takes 3 hours indicated by a green light on the charging case.

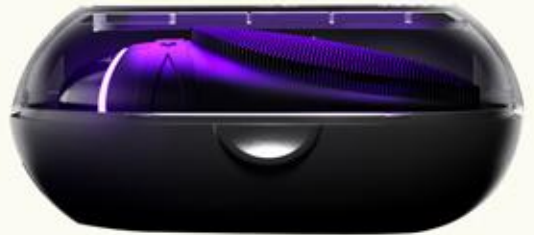

Note: this case is not waterproof

Self-Sanitization

While FLEX is charging, for 30 minutes, the UVC ring light on FLEX will activate and reflect on the mirror within the case. The reflection of the ring light will disperse throughout the case.

The safe, UVC ring light effectively eliminates 99.9% of bacteria and viruses.

Reading FLEX

Once charging is complete, expect FLEX to retain power for up to 5 hours of use.

FLEX features a ring light that indicates its current state of power. While FLEX is on, the ring light will illuminate white.

To power on FLEX, simply press the central power button. To adjust the Vibration speed, press the plus or minus buttons.

FLEX has seven speed levels:

Speed 1: 2500RPM/Min

Speed 2: 3500RPM/Min

Speed 3: 4000RPM/Min

Speed 4: 5500RPM/Min

Speed 5: 6500RPM/Min

Speed 6: 7500RPM/Min

Speed 7: 8500RPM/Min

Note: the UVC ring light will only activate while FLEX is charging in its case

Using FLEX

FLEX is IPX7 waterproof and can withstand water submersion up to 1 meter. This allows you to use it in the shower if desired.

To get started, apply WAR (face wash) to your FLEX. Wet your FLEX in warm water, power on, adjust to your desired vibration speed, then begin cleansing your face in a circular motion for 1-2 minutes.

After cleansing, power FLEX off, rinse your face with cool water, pat your face dry with MIRO (towel), then apply PRIME (moisturizer) to your face.

While the silicone bristles are skin-friendly, it is important to find a use frequency, vibration speed and applied pressure that works best for you.

After care

To clean FLEX, rinse with warm water. Run your fingers through the bristles to remove any residue from WAR. After rinsing, pat FLEX dry with MIRO before placing it into its case.

Troubleshooting

If you can not open the case, slide your fingernail in between the lid and base.

If your FLEX does not turn on, ensure that it is fully charged. If FLEX does not charge, ensure the USB charging source is working and retry charging overnight.

If your skin appears red after use, this is your skin's natural glow caused by blood circulation. It will dissipate within minutes.

The Power of FLEX™

FLEX™ eliminates ingrown hairs, razor bumps, acne, dry flakes, and pre-mature wrinkles unlike anything you've seen before. The method is Mechanical Vibration Exfoliation.

MOVE™ technology as we like to call it is a timeless science where vibration exfoliation gently messages away excess oils and dead skin that otherwise clog your pores.
