LOCATION **TARIFA**

RR: This was one of those sessions where everything aligned: no-one in Balneario, perfect 25 knot Levante winds, and Ocean Rodeo's secret new Big Air weaponry to test. I dialed in so quickly to this new kite that I ticked off my entire list of tricks straight away! After two minutes on the water, I decided that this new ALUULA kite will be the next benchmark for Big Air – rock solid, incredibly fast and responsive, producing the biggest lift I have ever experienced in nearly 20 years of kiting!
