THE FORTIS CEILING PICTURE RAIL SYSTEM

The Fortis Ceiling System rails are rated at 25.0 kg per lineal metre. This system is available with either 10.0 kg transparent nylon cables or 25.0 kg steel cables.

This style of picture hanging system is useful where the wall surfaces may not be even such as exposed brick or tile and stone where it's not possible to drill into the wall surface.

This system allows artwork or objects to be suspended in the middle of a space with the flexibility to move them effortlessly.

The rails for The Fortis Ceiling System are available in powder coated satin white in 200 and 300cm lengths. We can also custom powder coat this rail to any colour in the Dulux Range.

The Fortis Ceiling picture rail profile dimensions are: 17mm(h) x 14mm(w) Every rail comes with 3 x screws and 3 x masonry plugs per lineal metre.

All items in our product range are covered by a 5 year full replacement warranty.
