YPI was created with the basic aim to provide course material, guidance and practices that will help the children to:

- express their unique natural talents and abilities as fully as possible**
- understand and practice the virtues and qualities that are necessary to evolve a happy, healthy and fulfilling life dedicated to the service of humanity and care of planet earth as a whole**
- gain some understanding of the universal laws that govern human life**
- appreciate the wonders of the world we live in**

At the core of our approach is the idea that “the whole world is family”.
