MT4 EA install guide

EA is a fully automated expert Advisor with secure stop loss levels.

DOES NOT USE Dangerous systems like the Grid, martingale and other risky strategies.

It is tested with 99.9% every tick data!

STEP-BY-STEP INSTRUCTIONS: INSTALLING AN EXPERT ADVISOR on MT4:

Step 1: Transferring files

Download Your EA and Keep note of the location of where you saved it.

Select and copy the EA file you wish to install.

Open your Meta Trader Platform (MT4) Application which provided from your Broker or download from MetaTrader website.

Once your MT4 already open, Go to file and select Open Data Folder.

5. Next folder please select MQL4.

6. Select Expert folder and paste your file inside the expert folder

Step 2: Installing the EA on the MT4 platform

Since your MT4 platform are already Launch, Got to Navigator pane.

Look for the Expert Advisor section under the Navigator pane at the left side of the platform. Right click and select Refresh to shows your new Expert Advisor.

3. Click on the EA you want to install and drag it onto one of the charts on your Selected Currency pair platform

4. Click yes to open your EA.

Step 3: Adjusting the settings

On your EA, under common Tab

Check Enable alerts.

Allow Live Trading

Allow DLL Imports and Allow imports of External Experts.

Then Click OK.

At your input tab, this will be your own preferred settings on your EA.

Step 4: Enable Auto trading Button

After you have done the installation, check the Auto trading Button. If still in red color and the smiling face photo near to EA name is still on unsmiling face, your EA is not functioning yet.

Click the Auto trading button at the top of your MT4 Platform to enable mode. As per below photo. Make sure to turn to green, and the smiling face photo show's. And your Done...
