

PACE provides power, data, AV and TUF USB laptop and mobile charging to desktops and workstations in a stylishly compact organically shaped power rail.

Taking up a minimal amount of desk space, PACE is used in conjunction with the OE Elsafe QIKFIT range and provides a total solution for connectivity at the workstation. Used on its own or as part of a comprehensive OE Elsafe soft wiring solution PACE can be customised to suit most customer specifications.

PACE is quick and simple to install, attaching to the work surface with two top fix brackets. PACE comes with a rear access opening to connect data and AV cables with ease. PACE is ideal for workstations and desktops.

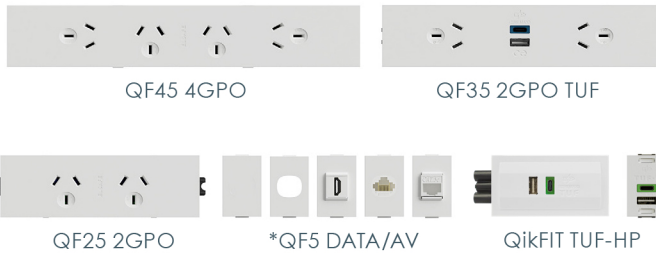

FEATURES

- Quick and easy installation
- Rear opening for easy data connection
