Now let's start the installation.

# 1. Assembling the Frame

- Please prepare a spacious area for installation, and put a shipping blanket on the area to prevent scratches on the floor and the frame.
- Loosen the hex head screws that fix the adjustable junction, but don't completely take out the screws.

Retighten all the hex head screws to finish the adjustment.

## 2. Assembling the Lifting Columns

## 3. Installing the Side Brackets

### 3B. Predrilling on Existing Top

If using supplied tabletop please disregard this step (3B)

After tightening the screws, use a **drill** to make mounting holes on the backside of the tabletop through the 8 mounting holes on the side brackets.

**Note:** The depth of the mounting holes should be over **10mm** and the diameter should be less than **3mm**.

### 4. Installing the Feet

- Place the foot on the bottom of the lifting column. Align the mounting holes on the foot with the screw holes on the lifting column.
- Fix the foot **D** using 4 screws **S-A** with the **Allen wrench S-G**.
- Repeat the same process to assemble the other foot.

## 5. Assembling the Sync Rod

- Turn over the desk frame with the crossbar facing up. **At least two people** are required when turning over the desk frame.
- With the frame positioned upright, turn the knob as shown counterclockwise to loosen the **sync rod B**.
  - Adjust the sync rod to match the frame's width then.

**CAUTION** *If only one person turns over the desk frame, serious bodily injuries might occur.*

- Match the red line on the sync rod with the right side of left leg. Match the right side of the right knob of the sync rod with the red line on the rod of the gearbox.
- Retighten the sync rod by using the knob.

## 6. Assembling the Cable Management Tray

Align the mounting holes on the tray hangers with the screw holes on the cable management tray. Assemble the tray hangers to the cable management tray **C** with 4 screws **S-D** from below using a Phillips screwdriver.

Hang the cable management tray on the crossbar as shown.

Tighten the knobs on the tray hangers.

## 7. Connecting Cords and Attaching the AC Adapter

- Connect the AC adapter **F** with controller **K**.
- Connect the controller with lifting column.
- Insert the power plug **J** into the AC adapter.

**Note:** The picture of the controller is for your reference only. Actual product may vary.

## 8. Assembling the Desktop

Remove the backings of the adhesive **rubber pad S-F**. Stick them to the surface of the crossbar on the eight positions as shown.

- Align the previously drilled screw holes with the mounting holes on the crossbar. Insert and tighten the **10 screws S-B** from below.

## Low Profile Adjustment

There are two adjustable foot pads under each foot. If the floor isn't even, simply turn the pad to adjust the height to make the desk stable.

**Tip:** Use a **bubble level** to check if the desktop is even.

Connect the desk to power.  
You can now use the sit-stand desk.

**Note:** We have another manual of the digital controller for detailed instruction. Please check the Digital Control Panel For Electric Height Adjustable Desk User Guide.
