

# CLEARSPAN TENTS

## Clearspan Tents Exclusive to Special Event Sales

Our Clearspan Tents, produced by Cosco Tents, are built to the highest standards. We have improved many design features of these tents to facilitate easier setup and tear-down.

**All fabric conforms to NFPA 701 and CAN/ULC S-109 flame-retardant standards and are engineered to withstand winds of 62 mph (100 km/h).**

The basic tent price includes solid walls which can be upgraded to window walls at minimal cost. We can provide engineered tent drawings and installation training is included.

**Clearspan Tents are available in lengths from 5m to 5000m. Please call us for all sizing inquiries.**
