

Supplying the Latest in LED Bars & Equipment

We have searched the world to bring you the latest in LED Bars. The problem with most LED bars is they are flimsy and cost an arm and a leg. With Special Event Sales LED Bars, we have brought you all the best features and at an affordable price!

Our LED Bars feature Polyethylene construction, which means these bars are virtually bulletproof.

They feature 7-colour LED lighting that comes with a rechargeable battery system and remote control, and hold integrated LED lighting which is recessed into the bar to protect any electronics.
