

VB40aX1 & X2

VOLTAGE BOOSTER

SINGLE & DUAL PUMP

BOOST THE POWER, BOOST THE PERFORMANCE

Get More from Your Existing Fuel Pump

- Most advanced pump voltage booster on the market
- Compatible with in-tank, in-line, brushed, and brushless fuel pumps
- Dedicated brushless mode maximizes brushless pump performance
- Intuitive programming via roller wheel and OLED screen
- User defined pass code protection

*26v on brushless pumps

- Single and dual pump models (X1 and X2)
- Brushed mode up to 20v and Brushless mode up to 26v
- Adjustable ramp rate to avoid fuel pressure spike
- 6160 T6 aluminum case with integrated finned heat sinks
- Compatible with DW brushless controllers
- Endurance tested to 40amps RMS

VB40aX1 Single Pump Voltage Booster: \$399

VB40aX2 Dual Pump Voltage Booster: \$449
