

EVERYWHERE
ALWAYS CONNECTED

inReach® Messenger

by Garmin®

SAFE—CONNECTED—PROTECTED

**THE BEST OF BOTH WORLDS:
GARMIN HARDWARE, EVERYWHERE SOFTWARE**

The inReach Messenger by Garmin is a small, compact satellite communicator, when combined with EVERYWHERE's purpose-built enterprise software and EVERYWHERE Intelligent Routing™ enables organizations to track and communicate with their teams deployed around the globe.

The Messenger combines an Iridium® Short Burst Data (SBD) modem for global communications, GPS, and a Bluetooth link to the EVERYWHERE Smartphone App to enable enhanced mapping and messaging capabilities.

KEY FEATURES

Syncs with The EVERYWHERE HUB, our purpose-built monitoring and messaging software, in use by government customers for over 15 years

Includes critical 24/7 SOS functions and location information in standalone mode, and when paired with the EVERYWHERE Smartphone App, provides secure and encrypted messaging

The internal, rechargeable lithium battery gives you 28 days of use at the default 10-minute tracking mode

Connect inReach Messenger to charge your phone.

The inReach Messenger device's high-end memory-in-pixel screen gives you the ability to confirm that messages have been sent, and you can even read responses right on the device.
