

## Fabula Syrah

We were so impressed with this Syrah, and think you will be too. It's full-bodied, smooth, balanced and long. Deep purple in colour. Ripe black cherry, chocolate, a hint of violets, with a long finish revealing earthy, rocky notes.

**Food match:** Superb with rich red meats, and slightly spicy vegetable and meat dishes.

### What's special about this wine?

This rich red totally over-delivers: ripe black fruit, chocolate, and an earthy finish.

### Like to know more?

- Origin: Carinena, Spain is about half-way between Rioja and Barcelona. The area enjoys sunny days (giving ripe fruit) and cool nights (maintaining its freshness).
- Producer: Bodegas Paniza, a co-op, which offers exceptional price:quality in this range.
- The wines are from Carinena DO. Fabula means 'fable' and each label carries an image relating to a fable. "And being cosmopolitan and refined, she established her true personality here." While Syrah is grown all over the world, and often called Shiraz, in the Carinena region, it has its own unique expression. This Syrah is un-oaked.
