

Sizzler Granules Guide

weigh out salts into jug.
We used 100g in this example

use 2% fragrance oil to salt ratio
so for 100g of salt its 2g of fragrance
mix together and stir

add mica powder to desired colour
and stir to mix
(alternatively the mica can be
added to the fragrance oil first
before adding to the salt)

spread out on grease proof paper or
tray to dry out and leave overnight

pour granules into pots

To Use

scoop into wax burner with tea light underneath
once scent has gone simply tip the granules away
