

Robin Antar
Artist's Statement

Sculpting has always been my spiritual refuge. I infuse my work with all the forces at play, yet my sculptures inevitably transcend personal emotions to offer insights into the broader culture that surrounds me.

I am simply an observer - nothing more, nothing less - recording history through my personal style of hyperrealism in stone. The meaning of each piece is left to the viewer, which often provokes a wide variety of reactions.

- Robin Antar, sculptor
