

**CATALOGUE**  
**SEPTEMBER 2022**

Hi

Welcome to the cheerful world of helen b!

Happy to share our newest collection with you. In the past year I have mainly explored the use of the helen b drawings, experimented with them, made a lot of murals, started to design installations, introduced patterns, and worked hard on the look and feel of helen b as a brand. The goal? **To bring our universe and characters more to life.**

Of course, the core of helen b remains the black and white illustrations, it's what I love to do and what you love most. But I'm happy to announce that as from now we will add a dash of color to our branding as well. A recognizable, but more vibrant and fresher helen b – that's who we are right now.

You'll meet new couples, strong women and even some pets as new illustrations throughout the collection. As always, I have some new signature **porcelain** cups and mugs for you, together with new bowls, a jug and breakfast plates.

Within our **textile** range I experimented more with the illustrations and most importantly: with patterns. I've extracted some patterns from my drawings and created new hand towel sets and bath towels. You should really experience and feel the new quality and texture, I'm so proud we've accomplished this.

For our **paper goods** I've created new notebooks, a new desk calendar with new quirky characters and even a memory game with 24 pairs of helen b characters you need to match.

I think it's safe to say the helen b universe keeps expanding and changing. Same goes for our team that keeps on growing. More creative, dynamic and friendly faces joined the family. Making it possible for me to focus on the creative part, to service you better, and allowing us to explore more ways to keep producing our products as locally as possible in an eco-friendly and durable manner.

I hope you can identify with this collection and it will bring you joy, giggles and makes you think about the world and people around you. But most of all: I hope it makes you smile. Because your **smile**, that's what drives us each day.

Dive into our catalogue and explore the new universe and look and feel of helen b, love to hear your thoughts!

Lots of love,

*helen*

# BESTSELLERS

An all-time favorite, the naked couple back is the most known out of all helen b characters. Its cheeky but sweet nature conquers all hearts. This signature porcelain cup has been the ultimate bestseller since forever.

This beautiful big jug features our popular flower girl, perfect for a big bouquet of flowers or to serve lemonade. Did you know that it has been more than 6 years already that we work with a social workshop in Ghent, where a large part of our collection is produced and processed?

This grl pwr design sure draws attention everywhere you go! All our tote bags are locally screen printed with water-based ink.

This quirky naked couple back carpet made of 100% organic cotton will fit perfectly in every room – on the floor or even against the wall.

No more boring office meetings with this bad ass laptop sleeve! Big enough to fit your laptop as well as your charger, documents and more stuff you'll need at work or school.

With this unique calendar you'll never miss a birthday anymore! Each month features another signature helen b illustration and it comes in a beautiful cardboard box, which makes it the perfect gift.

# PORCELAIN

This is where it all started: our porcelain collection.

Our mission is to offer you quality, sustainable and affordable porcelain. All of our products are designed in Belgium and we collaborate with partners that share our philosophy regarding respect for quality, work conditions and an overall sustainable production process. One of our most valued partners is a local sheltered workshop in Ghent. Once the porcelain arrives they make sure that the illustrations get transferred (one design at a time) onto the porcelain and they bake them in our ceramic ovens at 840 degrees Celsius. This ensures that all our porcelain products are dishwasher and oven safe. They will also make sure that all of our products are wrapped and packed in a conscious way, as we don't want to contribute to a throw-away society.

# CUPS

The illustrations on the cups will take you on a trip through the happy universe of helen b. It's my view on the world and people I see, experience and remember. But most of all, I want you to make up your own story when encountering my illustrations.

One day you'll see a dachshund like this.

**UNDERWEAR GIRL**  
She woke up like this this morning.

# MUGS

Our character mugs gather the most eccentric and different personalities. Everyone will recognize themselves in at least one of their character traits, or will know someone who resembles them. Each character mug comes with a small label. A little extra that gives the mugs a touch of warmth and makes them the ideal personal gift. The illustration is placed in a manner so you can see it from your point of view, so you'll have company while drinking a coffee. Once a year, on International Lefthanders Day, it's possible to order your special lefty mug. In that way, also lefties can look these quirky characters in the eye while sipping a coffee.

# TEXTILE

Most of our textile collection is made by small family businesses or textile studios in Portugal. Part of it is printed locally with water-based inks and whenever possible we use 100% organic cotton. We always choose our long-term partners consciously and expect them to share the helen b philosophy. We are very involved and co-manage the entire production process of our textiles. From the first samples, the used thread, the production of our helen b labels to the finishing touches.

# PAPER GOODS

The majority of our paper goods is printed on biotop paper, a sustainable paper solution. We collaborate with a social workspace in Ghent for the production, printing and packaging of our products. This allows us to produce lower quantities at once, so we don't have too much stock. We strive as much as we can towards a zero-waste way of producing and shipping. For the packaging of our greeting cards, stickers and prints for example, we use 100% biodegradable pouches made from corn paper.
