

Windfall Lumber

DOUGLAS FIR TELEPHONE LIVE EDGE TABLETOP

TNFDTLE-104 Clear

TNFDTLE-50 Iron & Vinegar

TNFDTLE-152 Café Mocha

TECHNICAL INFORMATION

STANDARD SIZING

- 2" X 24" X 24"
- 2" x 18" 96"
- 2" X 36" X 84"
- 2" X 36" 96"
- 2" X 36" 120"
- 2" X 36" 144"

MATERIAL

- Live edge is the natural edge of the pole with the bark removed. As in nature no two trees are alike, therefore each piece will have its own unique character with inclusion of surface checking and natural cracks in the wood.
- Douglas fir telephone pole colors vary from light rosy pinks, yellow-browns to dark amber reds and is set off by its remarkably straight, handsome grain.
- Janka hardness scale 710

SURFACE

- The live edge can be mounted up or down, (please specify when ordering or otherwise will be finished with live edge up).
- Finish top and edge surface is hand-sanded to 150 grit with bottom sanded with machine to smooth finish.
- A clear waterborne varnish is applied alone or over our stains to provide a durable surface and to enhance the beauty of the wood.

FINISHES AND FILLERS

- TNFDTLE-104; Clear Semi-Gloss, Waterborne Varnish, VOC: 23 g/l
- TNFDTLE- 50; Iron and Vinegar Stain, VOC: 0 g/l; Clear Semi-Gloss, Waterborne Varnish, VOC: 23 g/l
- TNFDTLE-152; Café Mocha Stain, VOC: 171 g/l; Clear Semi-Gloss, Waterborne Varnish, VOC: 23 g/l
- TNFDTLE-157; Ebony Stain VOC: <180 g/l; Clear Semi-Gloss, Waterborne Varnish. VOC: 23 g/l
- Fillers – We use very little epoxy or wood filler in comparison with the overall volume of our products. However, sometimes it is necessary to use either a two-part epoxy or a wood filler to fill cracks and other small deficiencies in the wood.
