

Battle tested. User ready.

Hear every word when it matters most.

Acoustic Tube Style Design combines 2-in-1 Call & PTT capabilities for maximum productivity and effectiveness!

Benefits

Stealthy Design and Clear Communications In One Headset

- Surveillance Acoustic Tube ear piece provides a clean appearance and is ideal for police, public safety, security, high-end hospitality and retail.
- Exclusive Loud System Design combines a High Performance Speaker with a Straight, Surveillance audio tube for maximum receive-audio -- tailored for mobile devices.
- Large, Multifunction, Button controls Answer/End function and PTT operations from one headset! Also integrates microphone for clear communications.

Certified Kyocera device compatible 2-in-1 Headset for Broadest PTT service provider support

- Custom Kyocera compatible 5-Pole, 3.5mm connector.
- Broadest PTT service provider compatibility.

Ergonomics and Comfort for Full Shift Wearability

- Headset design accommodates all uniform configurations.
- Replaceable silicon ear Tip styles for best performance in all settings.
- Combination of coil and low profile ear piece moves with the operator/user and stays in place.
- Versatile cable coil design expands to fit nearly all users.

Completely Customizable Configurations

- 1-Wire and 2-Wire single ear headset configurations.
- Multifunction button control with integrated clip can be placed for optimal wearability.
- Black hardware to blend into clothing.

Rugged Construction

- Durable, Kevlar-reinforced cable provides 20 pounds of pull strength.
- Industrial grade design for all commercial uses.
