

MALAMOO TP-6

ASSEMBLY INSTRUCTIONS

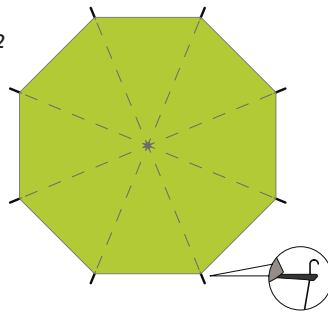

Step One: Assemble the support pole, ensuring all four sections are fully inserted into each other [Figure 1].

Figure 1

Step 2: Spread out the tent on the ground in your preferred location. Pull out the corners and loosely peg the tent to the ground [Figure 2].

Figure 2

Step Three: Go inside the tent with the assembled Support Pole, insert the top end of the pole in the tent apex and slide the pole into a vertical position. Pull out the corners and firmly peg the tent to the ground [Figure 3]. In windy conditions, ensure all guy ropes are securely pegged to the ground as illustrated.
