Integrated Media Pocket

Ever wanted to lay back and watch a movie in your tent? Well now you can! Our integrated media pocket will hold most devices so you can sit back

and enjoy some entertainment.

Fly IncludedWe have included the fly with the tent kit. The use

of a fly in a single skin tent can greatly reduce the amount of condensation in colder weather and

keep the tent cooler in warmer weather.

Passive Ventilation System The Passive Ventilation System allows air to flow through the tent minimising the potential for

condensation forming inside the tent. This makes for a cooler, less humid and more comfortable

camping experience.

Auto Lock/Release Frame Our innovative frame has automatic lock and

release mechanisms which makes setting up and packing down incredibly easy. Once you lock in the centre hub, all legs are pulled and simply locked into place. Similarly when packing down, pull down the center hub and all legs automatically

collapse.

Extra Large Attached Awning

Extra covered living space is essential when you're camping. The attached awning not only allows for

more space but more versatility. Walls can easily be attached to the awning to fully enclose the

space and give extra privacy.
