

Key Features:

- O High-speed setup
- Fly included
- O 100% Waterproof material guaranteed
- O Certified fire rating to CPAI-84
- O Sleeps 7

Description:

Without compromising on the quality of design or manufacture, we have been able to make some of our products even more obtainable to large families. Introducing our Oxley 7 Lite.

The Oxley Lite range is virtually identical to our Oxley range. The difference? The Oztent Oxley Lite range is fabricated and floored with 210D Polyoxford PU2000mm. A change that makes the tents slightly lighter and more affordable, ensuring that wonderful family camping experiences are even more achievable for all.

NEW FEATURES

100% Waterproof

Camping in a leaky tent is a terrible experience. That's why we ensure every Oxley Lite is 100% waterproof with the included fly attached. Enjoy a comfortable sleep even in the heaviest downpours.

Fly Included

We have included the fly with the tent kit. The use of a fly in a single skin tent can greatly reduce the amount of condensation in colder weather and keep the tent cooler in warmer weather.

Passive Ventilation System

The Oxley Lite range is fabricated and floored with 210D Polyoxford PU2000mm. This makes the tents lighter and more affordable, enabling a wonderful family camping experience for all.

Auto Lock/Release Frame

Our innovative frame has automatic lock and release mechanisms which makes setting up and packing down incredibly easy. Once you lock in the centre hub, all legs are pulled and simply locked into place. Similarly when packing down, pull down the center hub and all legs automatically collapse.

Extra Large Attached Awning

Extra covered living space is essential when you're camping. The attached awning not only allows for more space but more versatility. The Oxley Complete Panel System can easily be attached to the awning to fully enclose the space and give extra privacy.
