

Key Features:

- Fast and easy 30-second setup
- See the stars – SkyMesh Skylight built into the roof
- Great ventilation with the inclusion of a fly
- Includes all poles, pegs and ropes needed to setup the tent and peak the awning
- Rain cover now built into the carry bag
- Utilising our tried and trusted polycotton canvas material

Description:

Introducing the Oztent RV Plus range – everything you love about the RV range plus more! Just like the original, it still takes 30-seconds to setup, is built from high-quality 8oz polycotton canvas, features a large attached awning and is super modular but now we've added a SkyMesh Skylight, included the fly and all the extra poles you need to peak the awning plus a brand new rain cover for your carry bag! We've also gone and reconfigured the zips on the awning to make it even more waterproof when attaching accessories and added light loops to hold your LED lights underneath the awning and inside the tent. Time for an upgrade? The Oztent RV Plus is for you!

WHATS NEW?

SkyMesh Skylight

SkyMesh is built into the roof of the main tent and unzips to give you a full, insect-free view of the stars. All zips are located inside the tent to allow for easy opening and closing. SkyMesh also gives you great ventilation inside the tent.

Included Fly

The fly has always been an accessory to add onto your Oztent RV – that's not the case anymore! The Oztent RV Plus doesn't need the fly to be waterproof but it helps with ventilation and condensation all year round.

Peak The Awning (it's all included)

We believe your Oztent RV Awning is best when it's peaked so we included everything you need to do that! 2 x Peak Poles and 2 x Spreader Bars (plus ropes and pegs) come included with the RV Plus.

Rain Cover for the Carry Bag

Travelling with your Oztent RV Plus on the roof and expecting rain? Pull over the brand-new rain cover to keep your tent protected from the wet.

New Accessories Available

The Oztent RV is known for being modular. The RV Plus is no different! We've upgraded the Peaked Side Panels to be more waterproof and have introduced a brand-new Zip-in Tarp Extension giving you huge undercover space.

Specifications:

Material	
Tent + Awning	8oz Ripstop polycotton canvas
