

FELTFORMS CEILING TILES

1

Unpack the product carefully and inspect for quantity and transportation damage. Keep product in a clean and dust free environment.

2

If replacing old ceiling tiles, remove the tiles and ensure the grid is clean, secure and square.

3

Rotate tiles at an angle to insert into ceiling grid. Position the tile perimeter so it sits flat on the grid. Tiles on the edges can be cut with a sharp utility knife or power tools. Mark with masking tape for accuracy.

4

For complex cuts or edges use Edge tiles available on our website.
