

## L-XL Lamps Overview

### *Customizable Light Fixture*

The L and XL lamp's flexible design offers the options of mixing the top and bottom portions of the shade, adding color to the lamp, and expanding its size. The L Starter Component by itself is an elegant fixture. Add an XL Ring to increase the lamp's scale into a centerpiece for your room.

**Materials** Powder coated spun aluminum.

**UL Listing** The electrical components in this product are UL listed.

**Installation** The L-XL fixture is attached to the cord with a simple, plastic screw-on ring. The indentation at the top of the XL Ring rests on top of the outer lip of the L Starter Fixture. Gravity holds the ring in place.

## L-XL Lamps Environmental

**Origin** XL Lamps are made in the United States. Manufacturing locations were selected for their proximity to our studio as well as for their practices and labor conditions.

**Design** Designed as a series of components, the L Lamp has the potential to bypass trends and obsolescence. It can adapt to changes in aesthetic tastes or lighting requirements. The L Lamp's built-in flexibility may increase its lifespan!

### Recycled Content

The aluminum alloy used to make the L Lamp has recycled content ranging between 30% and 40% depending on the production batch.

### Recyclable

The L-XL Lamp is made from aluminum, a material that is widely recycled all over the world. Aluminum can be recycled indefinitely while still retaining its most desirable characteristics. Recycled aluminum uses 5% of the energy needed to produce aluminum from ore, making it both environmentally preferable and cost effective.

### Environmentally Preferable Finish

Powder coating is a durable, low VOC (volatile organic compound) finish. Once the paint is cured on the surface, no particles will be emitted into the air. This improves indoor air quality and eliminates strong odors in your living space.

### LEED Credits

MR Credit 4.1: Recycled Content: 10% (post-consumer + 1/2 pre-consumer) (1 Point)

MR Credit 4.2: Recycled Content: 20% (post-consumer + 1/2 pre-consumer) (1 Point in addition to MR Credit 4.1)

MR Credit 5.1: Regional Materials: 10% Extracted, Processed & Manufactured Regionally (1 Point)

## L Lamp

The L Lamp is a hand-spun aluminum lamp with classic lines that are easy on the eye and work well to focus light. Light up your dining room, living room, reception areas or office and retail environments. Add an XL Ring to increase the lamps' scale into a centerpiece for any room.

## L Lamp

### Philosophy

Flexibility to change and customize lampshades to fit a specific space or use is what inspired our design. Color and size options and the possibility of matching larger and smaller fixtures offer a variety of lighting possibilities.

### Design

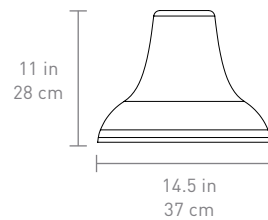

Designed as a series of components, the L-XL may increase the product's life span, avoiding trends and obsolescence by adapting to changes in aesthetic or lighting requirements.

**Weight** .10 lb / 45 g

**Cord Length** 180 in / 4.5 m

**Socket Size** 26 W / 300 W Max

## L-XL Lamp

When large is not enough, try the over-sized L-XL Lamp. This two-part hand-spun aluminum lamp adapts to diverse lighting needs and color preferences. Mixing the top and bottom portions of the shade adds color to the lamp and the XL ring expands its size to fit dining rooms, living rooms, reception areas and most office and retail environments.
