

Nomad Felt Overview

Modular Acoustic Room Divider

Nomad is a freestanding, modular room dividing system for flexible room separation. Create screens, temporary walls or entire rooms on demand. The system is composed of durable modules made from recycled plastic bottles that divert waste and keep sound in check.

Materials 60% recycled PET (rPET recycled plastic bottles) 40% PET

Format One pack includes 10 tiles. One pack covers 16 sq ft (1.48 m)

Installation Nomad System Felt flat-packs and is hardware and tool-free. Modules interlock via slots. Nomad System Felt can be infinitely configured.

Nomad Felt Environmental

Origin Nomad System Felt is made in the USA from locally sourced materials. The manufacturer was selected for its location, environmental practices and labor conditions.

Recycled Content

This product contains recycled fibers collected from post-consumer sources. This material requires less energy to produce and transport than virgin raw materials, lowering Nomad's environmental footprint without sacrificing beauty or function.

This product is made out of PET (Polyethylene terephthalate polyester) which can be recycled to make new PET products of similar quality. Existing recycling infrastructure for collecting and re-using PET are fairly common making this product easily recyclable.

Design Aikido

This design uses existing infrastructure including technology, molds, skills, raw materials and resources with built-in environmental and social advantages that create alternative markets and incentivize material, process and behavioral changes.

Efficient Packaging

This product is designed to flat-pack requiring limited packaging to minimize its logistics carbon footprint.

LEED Credits

MR Credit 4.1: Recycled Content: 10% (post-consumer + 1/2 pre-consumer) (1 Point)

MR Credit 4.2: Recycled Content: 20% (post-consumer + 1/2 pre-consumer) (1 Point in addition to MR Credit 4.1)

MR Credit 5.1: Regional Materials: 10% Extracted, Processed & Manufactured Regionally (1 Point)

Site specific: Contact us for additional information

MR Credit 5.2: Regional Materials: 20% Extracted, Processed & Manufactured Regionally (1 Point in addition to MR Credit 5.1)

Site specific: Contact us for additional information

Certified

Corporation

MIO is a B Corporation certified company. B Corps are for-profit companies certified by the nonprofit B Lab to meet rigorous standards of social and environmental performance, accountability, and transparency. For more information visit: www.bcorporation.net

Nomad Felt Specs & Usage

Benefits

- Moderate attenuation of chatter and din in gathering areas
- Improvements in clarity and intelligibility without “deadening” the room

Applications

- Multimedia and AV environments
- Commercial general usage, office and circulation areas
- Distributed background program areas
- Temporary work environments
- Event partitions and stage backdrops

Performance Testing

Flammability: ASTM E84 Class A
