

## Sled Room Divider

### Overview

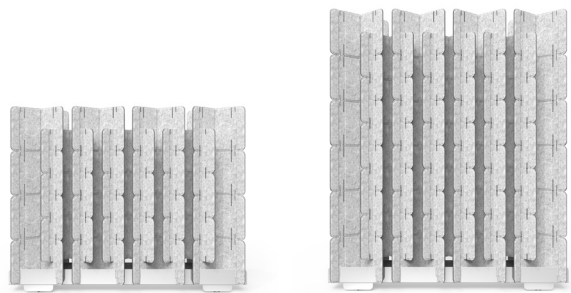

#### Portable Acoustic Room Divider

Sled transforms Nomad System Felt into a wall on wheels, providing on-demand visual privacy and sound control wherever it is needed.

**Materials** Recycled PET (rPET recycled plastic bottles) and recycled aluminum.

**Format** Sled Walls are 64" wide by either 4' or 6' tall.

**Assembly** Nomad System Felt is hardware and tool-free. Sleds require an adjustable wrench for assembly.

# Sled Room Divider

## Environmental

**Origin** Sled Room divider is made in the USA from locally sourced materials. The manufacturers were selected for their location, environmental practices and labor conditions.

### Recycled Content

This product contains recycled fibers and aluminum collected from post-consumer sources. This material require less energy to produce and transport than virgin raw materials lowering its environmental footprint without sacrificing beauty or function.

### Recyclable

This product is made out of PET (Polyethylene terephthalate polyester) and aluminum which can be recycled to make new products of similar quality. Existing recycling infrastructures for collecting both materials are fairly common making this product easily recyclable.

### Design Aikido

This design uses existing infrastructure including technology, molds, skills, raw materials and resources with built-in environmental and social advantages that create alternative markets and incentivize material, process and behavioral changes.

### Efficient Packaging

This product is designed to nest, flat-pack or otherwise require limited packaging to minimize its logistics carbon footprint.

### LEED Credits

MR Credit 4.1: Recycled Content: 10% (post-consumer + 1/2 pre-consumer) (1 Point)

MR Credit 4.2: Recycled Content: 20% (post-consumer + 1/2 pre-consumer) (1 Point in addition to MR Credit 4.1)

MR Credit 5.1: Regional Materials: 10% Extracted, Processed & Manufactured Regionally (1 Point)

Site specific: Contact us for additional information

MR Credit 5.2: Regional Materials: 20% Extracted, Processed & Manufactured Regionally (1 Point in addition to MR Credit 5.1)

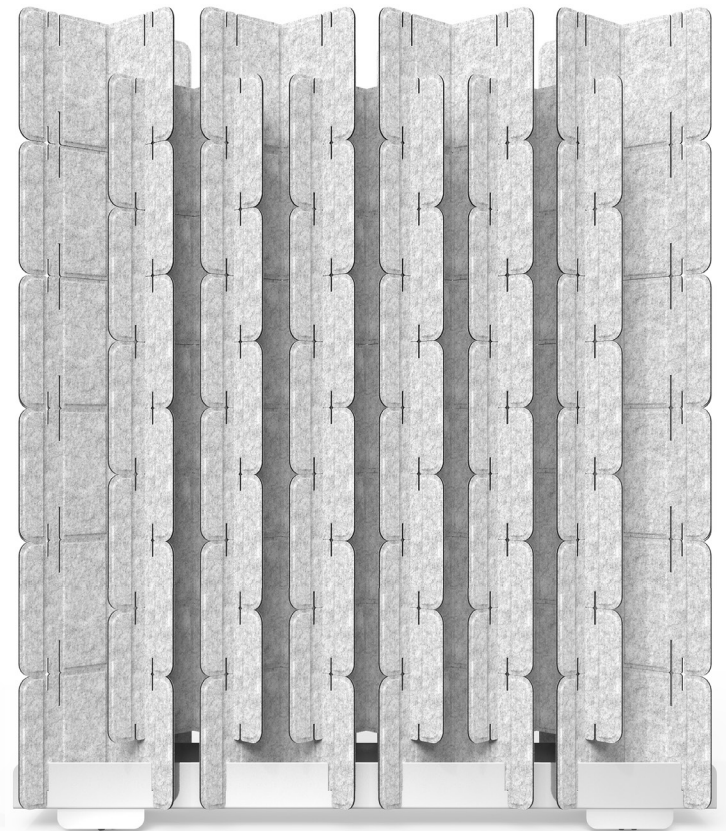

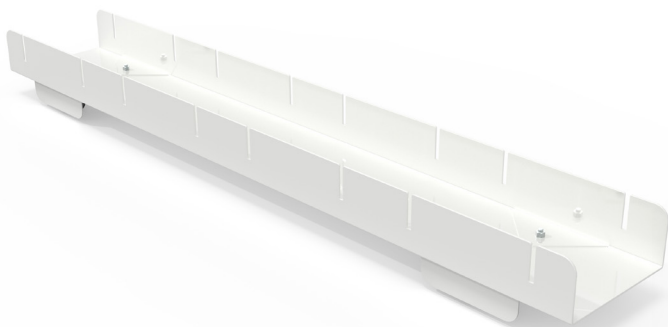

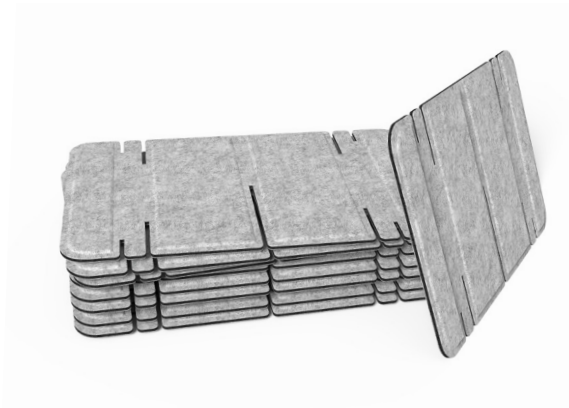

Site specific: Contact us for additional information

## Nomad Sled Components

Nomad Sled Room Divider is composed of smart modules and components that ship compactly, can be easily maintained, replaced and recycled. Nomad Sled takes design for disassembly to new room dividing heights.

# Nomad Sled Room Divider

## Philosophy

Nomad Sled was developed around the evolving needs of work and living spaces. The desire to create room dividers of varying sizes and shapes that can be easily transported challenged us to develop a mobility accessory for Nomad System Felt.

## Design

Nomad Sled transforms our modular room dividers into quickly portable screens. Guided by user needs and the simplicity of the Nomad System itself we created an on-demand platform for privacy and sound control.
