ABOUT THE PROGRAM

Our B2B program is designed for small and large businesses who want to uniquely enhance their brand, extend their sales footprint, and grow their customer base. Each handmade coaster is made of ceramic tile and sealed with a heat resistant non-toxic resin. Coasters are backed with cork for safe placement on any surface and measure 4 in. x 4 in.

Explore our partner program options, find the one that's right for you, and let's start growing together!
