## DESCRIPTION

The BOWERI collection, reworks the “handmade” theme in a contemporary key thanks to modern production systems. Highly polished porcelain bricks in the 2x10 size cover surfaces with surprising color effects and plays of light. Characterized by the typical imperfections of handcrafted majolica production, they lend themselves with flexibility to numerous laying games on floors and walls.

## INSTALLATION & MAINTENANCE

BOWERI may be installed using standard porcelain tile installation methods and materials, as recommended by the Tile Council of North America (TCNA). An Architessa sales representative will advise you on general installation questions.
