## DESCRIPTION

BAMBOO FOREST Inspired by Kyoto's bamboo groves, this tile collection blends traditional Japanese aesthetics with modern design. Handcrafted in Japan, each concave tile mimics split bamboo, capturing light and shadow. Available in Small Stem and Large Stem formats, BAMBOO FOREST brings natural elegance and depth to any interior space. Suitable for exterior walls, bathroom walls, backsplashes, shower walls, and fireplace surrounds.

## INSTALLATION & MAINTENANCE

BAMBOO FOREST may be installed using standard tile installation methods and materials, as recommended by the Tile Council of North America (TCNA). An Architessa sales representative will advise you on general installation questions.
