## DESCRIPTION

DUNA is a collection of glazed terracotta tiles with a soft, three-dimensional concave and convex shape resembling traditional clay Mediterranean shingles. Delicate and enveloping, the collection is inspired by the sinuosity of the sand dunes of the desert. Classic terracotta tones and a wide array of glossy colors make this collection an unmistakably unique one. DUNA terracotta tiles add character to spaces, and will liven places you live in.

## INSTALLATION & MAINTENANCE

DUNA may be installed using standard ceramic tile installation methods and materials, as recommended by the Tile Council of North America (TCNA). An Architessa sales representative will advise you on general installation question.
