## DESCRIPTION

Dynamic stone-look porcelain ceramics dictate the style of contemporary residential and commercial architecture. The MILESTONE collection features floors and walls with a bold and clean appeal: veining, color shades, and grain effects of different natural stones create a new contemporary interpretation of the material.

## INSTALLATION & MAINTENANCE

MILESTONE may be installed using standard ceramic tile installation methods and materials, as recommended by the Tile Council of North America (TCNA). An Architessa sales representative will advise you on general installation questions.
