DESCRIPTION

OPALINE is a collection of calacatta gold marble-look porcelain tile with a white background streaked with gray and gold veins reminiscent of apuano marble. This elegant stone-look porcelain tile is great for elevating a room and adding a touch of sophistication. Let the array of sizes and mosaics be your muse, as you create your own masterpiece in natural or polished marble.

INSTALLATION & MAINTENANCE

OPALINE may be installed using standard ceramic tile installation methods and materials, as recommended by the Tile Council of North America (TCNA). An Architessa sales representative will advise you on general installation questions.

The manufacturer of this tile recommends a 1/8" grout joint for rectified tiles, and a 3/16" grout joint for pressed tiles.
