DESCRIPTION

ORB is a terrazzo-look porcelain tile collection that masterfully interprets the renowned stone found on the slopes of Monte Clemo, Italy. This collection is characterized by its unique wavy clastic appearance on a richly textured tile. The ORB collection maintains the natural essence of the original stone, with irregularly distributed clasts of varying sizes, creating a dynamic and visually intriguing surface.

INSTALLATION & MAINTENANCE

ORB may be installed using porcelain installation methods and materials, as recommended by the Tile Council of North America (TCNA). An Architessa sales representative will advise you on general installation questions.
