## DESCRIPTION

Transform your space with SLIMWOOD ceramic wall tiles, the epitome of timeless appeal. Measuring 16" x 48", these large format tiles offer a seamlessly blending, realistic wood appearance in serene neutral tones, from crisp white to warm honey blonde. Featuring a unique 3D linear pattern closely resembling wooden wall slats, our LFT tiles ensure easy installation and minimal grout lines. Perfect for any setting, from tiled kitchen backsplashes to tiled bathroom walls, SLIMWOOD combines versatility with a natural wood look for modern and traditional designs alike.

## INSTALLATION & MAINTENANCE

SLIMWOOD may be installed using standard ceramic tile installation methods and materials, as recommended by the Tile Council of North America (TCNA). An Architessa sales representative will advise you on general installation questions. A dry flat lay should not be required as the grooves are consistent from full piece to full piece. The installer just needs to be aware when cutting on site so the cut sizes are done with keeping the grooves aligned above and below.
