CLASSIC

Classic is the traditional form of zellige, where the back and edges of the glazed tiles are cut to create a thin, straight edge that allows the tiles to be installed without a joint in between.

NOUVEAU

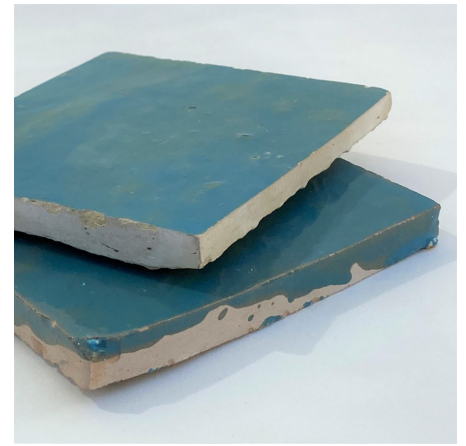

Nouveau is simply the tile before it is cut to make classic zellige. Nouveau tiles retain the natural edge from the mold which imparts a more "typical" tile look, while keeping the color variation and movement of zellige that people love. Nouveau tiles are easier to install, and finished installations will avoid some of the lippage associated with classic zellige.
