## Testimonials

"I ordered this for my AussieDoodle that suffers from skin sensitive most likely resulting from seasonal allergies. It has a very pleasant fragrance--subtle but nice and my dog did not seem to mind it and then afterwards, it definitely seemed to help alleviate some of his itchiness. I noticed this because he was rolling around on his back less and biting at his feet less."

-Chad, Customer

"I had a chance to use this on a horse at the ranch. She had a pretty deep cut on her leg. I followed directions and after a few days it healed very nicely and seemed a lot faster than without."

-Julz, Customer

"I had a chance to use this on a horse at the ranch. She had a pretty deep cut on her leg. I followed directions and after a few days it healed very nicely and seemed a lot faster than without."

-Audra Broach, from The Williamstown Equestrian

"Awesome product! My farrier recommended this for my mare to help with white line, along with applying the Kawell copper shoes. Together they have been helping tremendously! Easy and quick to apply. Wouldn't use or recommend another product since starting to use this!"

-Ciara, Customer
