## A Rich Heritage and Bright Future

As Gold Medal approaches a century in business, we reflect on our history and what it means to serve your concession needs now and into the future.

From our humble beginnings in 1931, with just \$2,000 and the strong work ethic of founder, David C. Evans, Gold Medal was born during the Great Depression. Through both challenges and prosperity, we've grown from selling simple drink concentrates into providing a complete line of concession equipment and supplies.

Now, the third generation of the Evans family leads the company, and the fourth generation is working here as well. With over 400 employees, Gold Medal has remained at the forefront of industry innovations by always putting our customers first.

Whether you're new to Gold Medal or a decades-long loyal customer, our commitment is the same. From developing, engineering, and manufacturing quality products to supporting you with a dedicated sales and customer service team, you can have confidence we're invested in your success. Put our experience to work for you.

We are proud to have made history for over nine decades. And together, we look forward to building a bright future. You can rely on Gold Medal to deliver Snacks, Smiles & Success!

# It's Simple. Push Button. Get Fresh Popcorn.

See how with the ReadyPop® Jr., ReadyPop®, and ReadyServe®!

## Transform the way you serve popcorn!

- Push-button dispensing is more convenient and sanitary than other options.
- Assist venues by saving on labor and limiting contact with staff.
- Guests will enjoy the novelty of dispensing their own popcorn.
- Operators will appreciate the ease of use.

## Key Popper Features Quick Reference Guide

**PowerOff® Control** A popular safety feature that automatically turns off kettle heat after 15 minutes of idle time. See the previous page for more PowerOff® Control information and models.

**E-Z Klean Kettles** The secret behind the E-Z Klean Kettles is the stainless steel cook surface. It's simple to maintain and the long-lasting performance ensures great-tasting popcorn every time.

**Fire Suppression** Vent hoods and fire drops can be costly additions. Now, you can protect yourself with the highest level of safety in industry-tested PopClean® poppers with the built-in Fire Suppression System. Ideal for theaters, arenas, stadiums, and more. **Fire Suppression is standard on all PopClean® poppers.**

**Big Eye Electronic Heat Control** How much could an extra set of eyes benefit you? In this case, the Big Eye Electronic Heat Control automatically monitors the temperature, providing you with increased precision and control.

**Brute Force Motors** Gold Medal has strength where it counts. Large, powerful drive motors mean you have popper performance you can rely upon.

**PopClean®** Gold Medal offers the highest level of filtration with PopClean®. This unique integrated system functions by trapping and filtering steam smoke and oil vapors created during the popping process. Yet, you'll still enjoy that irresistible popcorn aroma! Originally designed with cinemas in mind, this filtration protects digital projectors, menu boards, and other sensitive equipment. Meets stringent emissions requirements of UL 710B/EPA 202 (5mg). **PopClean® has earned the FDNY Certificate of Approval #5830.** Ask your Sales Representative for details.

**Twin-Arm Suspension** Operator safety is the top priority of the double-hung, twin-arm kettle suspension. It prevents accidental oil spills and gives more work room within the cabinet.

**Flexipop®** It's like two poppers in one! Pop half batches during non-peak times, then flip the switch to pop twice as much for high-demand periods. Your absolute best bet for high-efficiency productivity!

**Uni-Maxx®** Get the performance you need with a unified kettle and heat element, working together to provide the lowest energy consumption and maximum popping capacity.

**Advanced Touch Screen Controls** This intuitive 7" touchscreen display panel is simple to use and provides operators the ultimate user experience. Operators enjoy upgrading to the Advanced Touch Screen Controls because of key features and benefits including: customizable mode of operation; easier to use and train employees; the ability to program and customize recipes; accessibility to videos for quick reference on training and cleaning machine; improved technician diagnostics; back-of-house data; free software updates; customizable exhaust system timeout; and so much more.

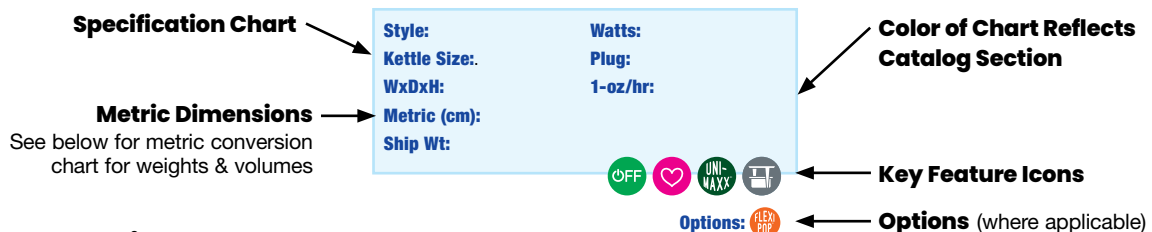

**BIB Oil Level Sensor & Bucket Pump** You don't have to question what your oil levels are. Located next to the popper controls, this sensor conveniently displays how much oil is left in the Bag-in-Box (BIB) oils. Available on Elite Popper® Series only.

**Kettle Guard** Take the extra step in safety with Kettle Guards, which help to prevent accidental kettle burns. Available on large poppers only.

**Salt/Sweet Switch** Available on larger electronic popper (i.e., Big Eye) kettles, the Salt/Sweet Switch gives you the option to pop sweet popcorn at the proper temperature, preventing sugar from burning.

**High Top Kettles** Expansion is made easy with High Top Kettles! Designed for 32-oz and 52-oz poppers, the taller lid creates as much as 30% more space, allowing you to pop to the max.

**A specification chart will typically appear below equipment photo and machine details.**

# Which Popper Is Right for Me?

Here at Gold Medal, we design our equipment to be user-friendly, making it easy, efficient, and cost-effective to implement at any location. But how do you know which popper is right for you? Here are 6 questions you need to ask yourself before you go to purchase a popper. Then check out Gold Medal's popper category selections to see which popper is right for you.

## 1 How will the popper be used — what venue?

- Will it be used at a school concession stand, office, bar, fundraiser, carnival, stadium, zoo, cinema, etc.?

## 2 Who will be operating the popper?

- Volunteers, adults, young adults, bartender, seasonal help?

## 3 How many servings of popcorn do you need to make in 1 hour?

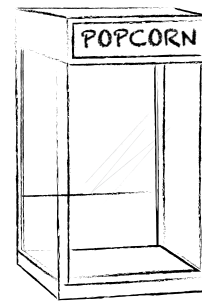

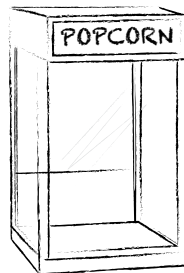

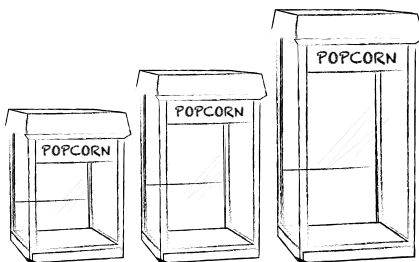

## 4 How much space do you have for the popper?

- Does it need to fit on a counter/does it need to be a floor model?

## 5 How much electric is available?

- 15 amp, 20 amp, 30 amp, etc.?

## 6 Who will be responsible for cleaning and maintaining\* the popper?

Our fire suppression system is an Ansul R-102 wet system. The system charge and arming must be performed by an Ansul certified fire suppression agency. Our customers can go to [Ansul.com](http://Ansul.com) to locate a qualified local agent. The Fire Suppression System is fully assembled and a tank is provided for the liquid fire suppressant agent. The fire suppression company will fill the tank with 3 gallons of Ansul liquid agent. In addition, they will install the CO<sub>2</sub> cartridge to propel the liquid agent. The standard cartridge is a 101-20 for most of our poppers. If it is a twin popper with a deep well, they will require a 101-30 cartridge. All links and other hardware are provided. The technician will then arm the system. Typically, every 6 months they will come back to inspect the system. The cost for charging and arming the system is the responsibility of the end customer.

\*Check code requirements of your local health department and fire marshal.

# Popcorn Supplies

**Concession Stands • Cinemas • Gourmet Popcorn Shops • Retail Locations • Stadiums • Arenas • Schools**

What's the secret to the best-tasting popcorn? You'll find it with Gold Medal oils, seasonings, and supplies! Check out our selection of the finest ingredients, including convenient corn/oil/salt kits.

## Flavacol®

### The World's Most Popular Seasoning Salt

Flavacol® is made using a proprietary process that results in salt with a finer flake, not a crystal. The result is more salt sensation – but with less sodium.

#2045

#2500

#2019

### A far better buttery flavor than any other brand

- Available in the original profit-maker formula, Premier (natural color), or Better Buttery (BB) taste
- Comes in handy quart-size cartons, 45 lb pail, or 50 lb bulk pack
- Gluten-free
- Featured in all Mega Pop® Portion Paks

### Want to sell more popcorn?

Then Flavacol® is your secret ingredient! Worldwide, more popcorn is popped with Flavacol® Seasoning Salt than any other.

The reasons are simple: sophisticated processes remove trace minerals in salt that can lead to bitter taste, and the right blend of ingredients brighten the color for maximum sales appeal. Most importantly, Flavacol® adds an even bigger, buttery taste, so you sell more popcorn and make more money.

# Popping Oil & Warmer

## Tastee Pop®

#2763 (1-gal. jug, 4/case)

#2762 (50 lb pail)

#2764 (35 lb BIB)

Pop smarter, pop tastier! A carefully blended and ready-to-use product, Tastee Pop® popping oil is our signature recipe of canola and coconut oils, perfectly harmonized for the best flavor and crispiest corn. Now you can pop without pause – this kosher blend is packed with diet-conscious essentials since it's gluten-free and dairy-free, with zero grams of trans fats.

## Excilibur Hot Wand (Oil Melter)

## Cotton Candy Machine Terms 101

### Ribbon Heat Element

- Heats up immediately and responds quickly to adjustments
- Best suited for owner/operators that know when and how to adjust the machine
- Element can be damaged if machine is not operated/cleaned properly

### Tubular Heat Element

- Takes slightly longer than the ribbon element to heat up and is slower to respond to adjustments
- Best suited for rental customers and multiple users who may not be as familiar with the operation of a cotton candy machine
- Element is almost indestructible
- Featured in all cotton candy machines with "Breeze" in the name

# Ingredient Information

## Information on allergens and religious documentation.

### Food Allergens

Required by law as of January 1, 2006, food producers must list food allergens on all food product package labels.

A food allergen is any edible substance that causes a person to have an allergic reaction or something to which a person would have a strong aversion. According to the Food Allergen Label Consumer Protection Act (FALCPA), governed by the Food and Drug Administration (FDA) of the United States government, there are eight predominant food allergens: milk, egg, soy, fish, wheat, peanuts, tree nuts, and crustaceans.

There is no cure for a food allergy; only strict avoidance of the allergy-causing food can prevent an allergic reaction. Anaphylaxis is the most severe type of allergic reaction. It is sudden, severe, and potentially fatal. It results when the body's immune system reacts to otherwise harmless food proteins. The occurrence of an anaphylactic reaction can vary. It can begin very suddenly within seconds of eating a food, or occur hours after having ingested the food. Anaphylaxis should always be considered a medical emergency, as it may result in brain damage or death.

#### Anaphylactic symptoms can include:

- Hives
- Swelling of the lips, tongue, and throat
- Nausea
- Shortness of breath, wheezing
- Drop in blood pressure
- Loss of consciousness

For more information about food allergies visit [www.foodallergy.org](http://www.foodallergy.org).

To verify if an allergen is present in a Gold Medal Products Co. product, read the ingredient label or contact your Gold Medal dealer or distributor. Food allergen cross-contamination occurs when any allergen is introduced to another or a non-allergen product. When changing products, identify any and all allergens that exist between products. When products' allergens differ, all contact surfaces and equipment must be thoroughly cleaned with soap and water to avoid cross-contamination.

### Gluten

Gluten is a protein in wheat, rye, oats, and barley. Common Gold Medal products that do not contain gluten are Sno-Kone® syrups and concentrates, Flavacol®, Frusheez® mixes, Flossugar, Flossine®, Mega Pop® popcorn/salt/oil kits, Glaze Pop® mixes, Complete Corn Treat mixes, and Caramel, Basic, and Chocolate Corn Treat concentrated mixes. For a comprehensive list of products go to our website [www.gmpopcorn.com](http://www.gmpopcorn.com) or contact your Gold Medal dealer.

### Religious Documentation

Many of our products are Kosher and/or Halal-certified. Certificates are available on request, or can be downloaded from our website at [www.gmpopcorn.com](http://www.gmpopcorn.com).

### SQF Certified

The **Safe Quality Food (SQF) Program** is a rigorous and credible food safety and quality program that is recognized by retailers, brand owners, and food service providers world-wide. Recognized by the Global Food Safety Initiative (GFSI), the SQF family of food safety and quality codes are designed to meet industry, customer, and regulatory requirements for all sectors of the food supply chain – from the farm all the way to the retail stores.
