## Installation Instructions/Guidelines

- ◆ Refer to full guidelines issued with the product prior to installation and check suitability
- ◆ Clear all debris from the carpet prior to installation
- ◆ Simply roll out the reverse wound product
- ◆ Apply pressure to the film on to the carpet to activate the adhesive
- ◆ Where carpet has been installed using a glue or adhesive, do not install for at least 72 hours so that the adhesive vapours can dissipate before application.
- ◆ Do not apply to damp carpet or in areas that may be subject to moisture accumulation
- ◆ Excessive traffic and exposure to direct sunlight or intense heat may accelerate adhesive transfer

## Handling & Storage

Store and install in ambient conditions. The rolls should be stored at room temperature 24 hours prior to installation.

**Non-slip, flame retardant carpet protection for use during final construction stages to protect carpets and stairs.**

## Features & Benefits
