SECTION 2: COMPOSITION/INFORMATION ON INGREDIENT

CHEMICAL NAME	CAS #	INDEX #	CONTENTS	HEALTH CLASS	RISK (R #)
Ethyl-2-Cyanoacrylate	7085-85-0	607-236-00-9	60-100	Xi	36/37/38
Poly (Methyl Methacrylate)	9011-14-7		10-30	Xi	36/37/38

SECTION 3: HAZARDS IDENTIFICATION

Cyanoacrylate. Danger. Bonds skin and eyes in seconds. Keep out of reach of children. May cause sensitization with skin contact. Irritating to eyes, respiratory system and skin.

SECTION 4: FIRST AID MEASURES

EYES: Flush areas of contact with plenty of running water ensuring, were possible, that the eyelids are kept open. Adhesive will disassociate from eye/eyelids over time, usually within several hours. Temporary weeping of eyes/double vision may be experienced until clearance is achieved.

SKIN: Immerse bonded areas in warm, soapy water. Peel or roll skin apart. Remove cured adhesive with several applications of warm, soapy water. Prolonged or repeated contact at elevated levels may cause dermatitis in sensitive individuals.

INHALATION: Remove to fresh air. Prolonged or repeated exposure at elevated levels may produce allergic reactions with asthma-like symptoms in sensitive individuals.

INGESTION: Lips may become stuck together: apply copious amounts of warm water & encourage wetting/pressure from saliva inside mouth. Peel or roll (do not pull) lips apart. It is almost impossible to swallow cyanoacrylate as adhesive solidifies upon contact with saliva & may adhere to inside of mouth. Saliva will lift adhesive in 1-2 days, avoid swallowing adhesive after detachment.

SECTION 5: FIREFIGHTING MEASURES

EXTINGUISHING MEDIA: Flush with large amounts of water or dry chemical extinguisher. With water contact, material reacts to hardened mass. During fire fighting, fumes may be irritating if not burning and require air supply with goggles. Combustion will produce carbon dioxide, carbon dioxide, oxides of nitrogen and probably hydrogen cyanide.

Product polymerized by water, alcohol, amines, alkaline materials and direct UV.

SECTION 6: ACCIDENTAL RELEASE MEASURES

SPILL CLEAN-UP METHODS: Polymerize with water. Solid material may be scraped from surface.

SECTION 7: HANDLING & STORAGE

PRECAUTIONS - HANDLING: Use with adequate ventilation. Avoid breathing vapor and avoid contact with eyes/skin. Handle and open container with care. Point container away from face and body when opening. Avoid contact with clothing as can cause burn.

PRECAUTIONS - STORAGE: Avoid moisture, direct UV-sunlight and do not store above 25 C (77 F). Keep containers closed tightly when not in use. Ideal storage: 5-10 C (41-50 F).
