

# Artisan Chrome & Holographic 2-in-1 Top & Base Coat

## Product Instructions

### **For Applying: Holographic & Chrome Pigments**

You will need:

Artisan Equalizer  
Artisan GelEfex Base Gel  
Artisan GelEfex Black Knight Gel Polish  
Artisan GelEfex Chrome & Holographic 2-in-1 Top & Base Coat  
Holographic or Chrome Pigment  
Sponge Applicator  
LED Gel Lamp

Instructions:

1. Sanitize and prep nails with Artisan Equalizer.
2. Brush on a thin, single coat of Artisan GelEfex Base Gel. Cure for 30 to 60 seconds under an LED gel lamp.
3. Apply Artisan GelEfex Black Knight Gel Polish. Feel free to experiment with other gel colors with holographic pigment, but we strongly recommend a black gel polish for best results. Cure for 30 to 60 seconds under an LED gel lamp.
4. Apply Artisan Chrome & Holographic 2-in-1 Top & Base Coat. Cure for 60 seconds.
5. Buff holographic or chrome pigment onto the nail using the sponge applicator.
6. Dust off excess with a small acrylic brush.
7. Apply Artisan Chrome & Holographic 2-in-1 Top & Base Coat. Cure for 60 seconds. **DON'T WIPE!**  
This is a no-wipe top coat.

### **For Applying: Artisan GelEfex Metallic Gel Polish**

You will need:

Artisan GelEfex Base Gel  
Your choice of Artisan GelEfex Metallic Gel Nail Polish  
Artisan GelEfex Chrome & Holographic Top Coat  
LED Gel Lamp

Instructions:

1. On clean hands, apply 1 coat of Artisan GelEfex Base Gel.
2. Cure 30 to 60 seconds under an LED gel lamp.
3. Apply **ONE VERY THIN** coat of your choice of Artisan GelEfex Metallic Gel Nail Polish.

**NOTE: Make sure to apply a very thin layer. Otherwise, gel polish will not cure properly.**

4. Cure for another 30 to 60 seconds under an LED gel lamp.
5. Apply a SECOND VERY THIN layer of your choice of Artisan GelEfex Metallic Gel Nail Polish if needed.
6. Cure again for another 30 to 60 seconds under an LED gel lamp.
7. Apply ONE VERY THIN coat of Artisan GelEfex Chrome & Holographic Top Coat.
8. Cure for another 60 seconds under an LED gel lamp.
